

Ender in Exile (The Ender Quintet)

Ender in Exile is the New York Times bestselling direct sequel to the beloved bestselling science fiction classic *Enders Game*. At the close of *Enders Game*, Ender Wiggin knows that he cannot live on Earth. He has become far more than just a boy who won a game: he is the Savior of Earth, a hero, a military genius whose allegiance is sought by every nation of the newly shattered Earth Hegemony. He is offered the choice of living as a pawn or he can join the colony ships and go out to settle one of the new worlds won in the war. Ender chooses the stars. With his sister, Valentine, he takes passage aboard a fast ship to Colony One. The voyage will take two subjective years and when Ender arrives, he will become governor of the new world. Meanwhile, he is under the command of the ship's captain: a man with ambitions, a man who finds it unthinkable that he would be ruled by a twelve-year-old boy. Admiral Morgan doesn't understand what Ender Wiggin is. But he will.
