

Black Girl in Paris

Black Girl in Paris wends its way around the mythology of Paris as a city that has called out to African-American artists. Like James Baldwin, Langston Hughes, and Josephine Baker before her, Youngbloods heroine leaves her home, in the American South, nurturing a dream of finding artistic emancipation in the City of Light. She experiments freely, inhabiting different incarnations - artists model, poets helper, au pair, teacher, thief, and lover - to keep body and soul together, to stay afloat, heal the wounds of her broken heart, discover her sexual self, and, finally, to wrestle her dreams of becoming a writer into reality.

Based on the novel by Shay Youngblood, Black Girl in Paris is written and directed by Kiandra Parks and stars Tracey Heggins (Medicine for Short Black Girl in Paris starring Tracey Heggins, Zarah Abrahams, and Claudine Acs.
