

Household Education

[...]guardians if they quench this power, or turn it into a curse and disease by foul feeding! Then, the Emotions of men are so many powers, to be recognised and trained. Of the power of Hope there is no need to speak, for all see what it is as a stimulus, both in particular acts, and through the whole course of a life. Fear is hardly less important, though it is intended to die out, or rather to pass into other and higher kinds of feeling. A child who has never known a sensation of fear (if there be such an one) can never be a man of a high order. He must either be coarsely made in body, or unable to conceive of anything but what is familiar to him. A child whose heart beats at shadows and the fitful sounds of the invisible wind, and who hides his face on his mothers bosom when the stars seem to be looking at him as they roll, is no philosopher at present; but he is likely to grow into one if this fear is duly trained into awe, humility, thoughtfulness, till, united with knowledge, it becomes contemplation, and grows into that glorious courage which searches all through creation for ultimate truth. Out of[...].

This paper characterizes household spending in education using microdata from income and expenditure surveys for 12 Latin American and This study aims to estimate the determinants of household spending on education and nutrition. Education and nutrition are noteworthy elements for human Description: This report presents findings from the Parent and Family Involvement in Education Survey of the National Household Education The National Household Education Surveys Program (NHES) provides descriptive data on the educational activities of the U.S. population and offers Martineau wrote Household Education in 1848, lamenting the state of womens education.
