

Crabwalk

Hailed by critics and readers alike as Gunter Grass's best book since *The Tin Drum*, *Crabwalk* is an engrossing account of the sinking of the *Wilhelm Gustloff* and a critical meditation on Germany's struggle with its wartime memories. The *Gustloff*, a German cruise ship turned refugee carrier, was attacked by a Soviet submarine in January 1945. Some nine thousand people went down in the Baltic Sea, making it the deadliest maritime disaster of all time. Born to an unwed mother on a lifeboat the night of the attack, Paul Pokriefke is a middle-aged journalist trying to piece together the tragic events. For his teenage son, who dabbles in the dark, far-right corners of the Internet, the *Gustloff* embodies the denial of Germany's suffering. *Crabwalk* is at once a captivating tale of a tragedy at sea and a fearless examination of the ways different generations of Germans now view their past.
