

The Strange History of Suzanne LaFleshe: And Other Stories of Women and Fatness (The Womens Stories Project)

Spanning the 1890s through the 1990s, this unique, daring, and vital collection explores the many psychological and emotional tensions in women's relationships to and perceptions of their physical selves. Addressing the peculiarities, the delights, and the shames of body politics that reside in the flesh, these stories of bodies that refuse to be contained deftly and astutely comment on popular notions of acceptable body types and behaviors. Often witty, sometimes painful, and always revelatory, the stories in this anthology offer a measured assessment of the rules, unspoken and otherwise, that govern women's bodies. Whether celebrating bodies deemed transgressive or simply acknowledging that such bodies exist, the volume's diverse literary representations of fatness render these bodies brilliantly, unapologetically visible.

The strange history of Suzanne LaFleshe and other stories of women and fatness The language of the fat woman (1992) / Elana Dykewomon / The man I love . in the print culture of the early republic : the Jefferson City Editorial Project.
